# ABOUT US

Fairyland Group is one of the global recognized product research and development enterprises specializing in the innovation, production, and distribution of premium hardware components and advanced webbing, belts and suspenders solutions.

Our core offerings encompass premium hardware accessories — including precision-crafted buckles, clasps and fasteners — as well as advanced webbing products designed for applications in fashion, outdoor gear, automotive manufacturing, luggage, and industrial equipment.

Our vertically integrated supply chain and state-of-the-art facilities ensure seamless customization, rapid prototyping, and scalable production to meet the evolving needs of clients worldwide. By fostering collaborative partnerships and maintaining a customer-first ethos, Fairyland Group empowers brands to achieve competitive differentiation. With a global network of subsidiaries and a forward-thinking team, we continue to redefine industry benchmarks while supporting clients at every stage of their growth journey.
